DETAILED ACTION

Response to Arguments

Applicant's arguments filed 25 July 2005 have been fully considered but they are not persuasive. Despite the Applicant's contention that the position of the Applicant's sensor is a "significant distinction" from sensor 14 of Patent Number 5,989,122 by Roblejo, positioning the sensor of the '122 patent between stack holder 12 and wheel 13 is an obvious design choice. The sensor 14 of said patent reads the bottom card of a stack of cards in stack holder 12 individually (see Figure 1). Furthermore, said sensor 14 is capable of reading "bar codes [] or other coded information" (column 3, lines 18 plus) on each individual card as the card appears face down prior to being inserted into the wheel 13. Since a bar code can easily be scanned by a stationary sensor as a card is transported past said sensor, it would have been obvious to one of ordinary skill in the art at the time of the invention to position the sensor 14 of said '122 patent at any location along the travel path of said cards between said stack holder 12 and wheel 13.

Accordingly, claims 1-19, 22-24, 32 and 33 stand rejected.

Allowable Subject Matter

Claims 25-31 are allowed. Claims 20 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
